

Инв. № подл.

A diagram of a vertical beam of length  $l_4^*$ , supported at its base by a pin support. A horizontal force  $F$  is applied to the beam at its midpoint, pointing to the right. The beam is divided into four equal segments by three internal hinges. The segments are labeled from top to bottom as: 'segment 1', 'segment 2', 'segment 3', and 'segment 4'. The total length  $l_4^*$  is indicated by a dimension line at the bottom left.
